

S1 Table. Demographic characteristics – Experiment 1 (N = 128)

VARIABLE	LEVEL	TOTAL	¹ GROUP 1	² GROUP 2	³ GROUP 3	⁴ GROUP 4
SEX %	Female	52.34	13.28	10.94	12.50	15.62
	Male	45.32	10.94	13.28	11.72	9.38
	Other	2.34	0.78	0.78	0.78	—
EDUCATION %	High-school	64.06	16.41	16.41	15.62	15.62
	Technical	12.50	4.69	2.34	3.91	1.56
	Undergraduate	23.44	3.91	6.25	5.47	7.81
SES %	1 (Lowest)	11.71	3.12	2.34	3.91	2.34
	2	30.47	6.25	10.16	6.25	7.81
	3	44.54	10.16	9.38	13.28	11.72
	4	13.27	5.47	3.12	1.56	3.12
AGE, MEAN (SD)	—	21.42 (2.96)	21.19 (2.63)	21.59 (3.19)	21.78 (2.38)	21.12 (3.59)

Group 1: 6 reasons, oppose credibility ($n = 32$)

Group 2: 2 reasons, oppose credibility ($n = 32$)

Group 3: 6 reasons, support credibility ($n = 32$)

Group 4: 2 reasons, support credibility ($n = 32$)

S2 Table. Demographic characteristics – Experiment 2 (N = 135)

VARIABLE	LEVEL	TOTAL	¹ GROUP 1	² GROUP 2	³ GROUP 3	⁴ GROUP 4
SEX %	Female	63.00	11.85	18.52	16.30	16.30
	Male	35.56	13.33	5.93	6.67	9.63
	Other	1.48	0.74	0.74	—	—
EDUCATION %	High-school	71.11	19.26	19.26	15.56	17.04
	Technical	16.99	2.22	2.22	5.19	7.41
	Undergraduate	11.85	4.44	3.70	2.22	1.48
SES %	1 (Lowest)	9.63	0.74	4.44	2.22	2.22
	2	30.37	7.41	5.93	7.41	9.63
	3	34.07	9.63	8.89	7.41	8.15
	4	23.70	8.15	5.19	5.19	5.19
	5 (Highest)	2.22	—	0.74	0.74	0.74
AGE, MEAN (SD)	—	20.90 (4.04)	20.34 (1.83)	20.47 (2.93)	22.00 (6.28)	20.91 (4.02)

Group 1: 2 reasons, no time-limit ($n = 35$)

Group 2: 6 reasons, no time-limit ($n = 34$)

Group 3: 2 reasons, 20 s limit ($n = 31$)

Group 4: 6 reasons, 20 s limit ($n = 35$)
