

Supplementary Figure Legends

Supplementary Figure 1. Multiple alignment of Indian SARS-CoV19-2 spike protein sequences showing mutation site at amino acid position 614.

Supplementary Figure 2. Comparison of 3D view of **A.** SARA spike glycoprotein PDB ID-6CS2 (Krichdoerfer et al. 2018) and **B.** SARA CoV-2 spike glycoprotein [homology model generated using spike protein sequence (QHU36864)] PDB-6acg as template.
