

Dear Editor,

We sincerely appreciate the constructive feedback provided by the reviewers, as it has significantly contributed to improving the quality and clarity of our work. Each feedback has been carefully considered, and revisions have been made accordingly. In addition to revisions based on reviewers' comments, we have also adjusted the range of the vertical axes in Figure 6 to enhance clarity. Furthermore, we reviewed our manuscript to identify and eliminate any unnecessary repetition to ensure that it complies with your guidelines.

We have uploaded the relevant files in the specified order, following your instructions. We hope this revised version meets the journal's standards for publication. If further revisions are required, please do not hesitate to inform us.

Thank you in advance.

Sincerely,

Rafat Mohammadi, Assistant Professor  
Mechanical Engineering, Faculty of Engineering  
Arak University, Arak, 38138-5-3945, Iran.
