

Table 2.

Summary of categories and main areas of the CCNs and RNAs experiences of monitoring children in the PACU.

<b>Adequate grounds for decisions</b>	
Prescriptions and guidelines	Potential of technology
Clinical assessment	Child's health status
Participating parents	Situational awareness
<b>Inadequate grounds for decisions</b>	
Limits of technology	
Inappropriate use of technology	
Decision by previous caregiver	

Table 3.

Summary of categories and main area of the CCNs and RNAs actions connected with the child's monitoring.

<b>Adjustment of the monitoring</b>
Reducing interference caused by monitoring
Monitoring based on the current situation
Non-technical assessment.
